

TAKE A TRIP FULL OF ADVENTURE AROUND THE WORLD WITH US

We will turn into sailors and sail the seven seas and explore the known and the unknown. We will visit our planet's individual continents and we will get to know the land and climate, flora and fauna, the inhabitants and their customs, history and art. We will see it from all sides and angles, looking below the surface and playing in thousands of ways.

For the summer holidays 2011, Willowtrees International Montessori Preschool has again prepared an all-day program for children from the youngest ones to school kids.

- summer camp running from 27.6. until 19.8.2011
- we invite children from 1.5 to 8 years of age (for children younger than 3 years of age, the program is suitable only if they already come to our school and are used to our environment)
- activities from 8.00 a.m. until 3.30 p.m.
- weekly theme workshops – exploring the continents (games and sports, dance, theatre, arts and crafts, cooking, experiments,... etc.)
- working with Montessori materials
- activities in the nature (garden, forest across the street)

Themes of the individual vacation weeks – continents

Week	Theme of Week	Week	Theme of Week
26	27/6 – 1/7	North America	30 25/7 – 29/7 Asia
27	7/7 – 8/7	North America	31 1/8 – 5/8 Africa
28	11/7 – 15/7	South America	32 8/8 – 12/8 Australia
29	18/7 – 22/7	Europe	33 15/8 – 19/8 Antarctic

How we will work with the themes

- We always start by sailing the seas, a parchment inscribed in invisible ink will reveal a map of our nearest destination.
- Getting to know the continents through all the senses – evoking the atmosphere: we land, anchor and meet with the continent's typical representatives, then we will gradually explore the coast and interior, the land and its climate, plants and animals and mainly people and local customs, tasting, smelling, listening to music, singing, dancing, making instruments and playing on them, hunting, playing sports, cooking local delicacies, building dwellings,... simply experiencing how people live elsewhere
- We work with the themes in various ways and using various techniques– outdoor activities and games, experiments in the classroom, creativity in movement, arts and crafts, masks and costumes, constructions of typical dwellings, cooking, gardening, ...
- And let's not forget about the experiments that the children love and which can suitably complement the themes – with the senses (tastes, odours, tactile investigations, sounds, optical illusions,...), with water (does it float, hot – cold, what dissolves, what is heavy and what is light, what fits where, how plants drink,...), natural elements (volcanoes, earthquakes, windstorms, waves, haze and fog), the living and nonliving (experiments on the theme of how we find out), gravity (why don't Australians fall off the bottom of the Earth),... and much, much more
- Every Friday is the grand finale of week's theme with a carnival celebration or action-packed outdoor game

Don't forget to bring sailor outfits or pirate costumes, telescopes and compasses and other travelling gear. You can also bring equipment suitable for the continent being visited or treasures that you have picked up on your journeys around the world.

Program pricing

Summer Camp Pricelist 2011	
Price per week in CZK acc. to number of days	
3 half-days in selected week	2 200 Kč
5 half-days in selected week	2 900 Kč
3 full-days in selected week	2 500 Kč
